## Education

[КИП при Финансовом университете](#) ↗, Web-developer

2019 – 2023, diploma

## Languages

Russian, native

English, B1-B2, conversational

## Interests

Photography

Hiking

Cycling

Garment making

Vinyl collecting

Travel

Future ↑

## Social Platforms

December 2023 → May 2025

Product Designer

Designed a web platform for social surveys and internal communication. Built a design system from scratch and used it to deliver core modules: chat, calendar, tables, kanban, timeline, and an entity tree. Worked in an MVP environment and during rapid product growth, balancing business requirements, development constraints, and UX quality.

## SberDevices

June 2023 → September 2023

Product Designer

Owned part of the design system and led the implementation of a tool that standardized collaboration between design and development. The solution was recognized as one of the key product initiatives of the year.

## CRAUCH

May 2023 → June 2023

Product Designer

Developed a website design concept for the fintech product Finlab. Took over the project after the previous designer left and successfully delivered it to release within the deadline.

## Independent Projects

September 2022 → April 2023

UX/UI, core interfaces

Pet projects and freelance work with local products and interface design.
